ABOUT US

A Future Empowered by the Past

The foundations of our company were laid in the 20th century when the Çetinkaya family began operations in the domestic cleaning industry, focusing on the production of textile and plastic products. In 1997, Üçtem-Plas was officially established, evolving into a leading brand in the Turkish market and successfully exporting to more than 75 countries worldwide.

Driven by consistent growth and increasing global demand, the family launched the UTP Professional division, specializing in the manufacture of high-quality professional cleaning equipment in Turkey. Our extensive product range includes textile cleaning materials, multi-purpose trolleys, window cleaning tools, brushes, and equipment tailored for the hospitality sector.

All of our products are developed and designed in-house by our R&D department, within our 15,000 m² facility, where more than 200 dedicated employees work toward delivering excellence.

OUR MISSION

Creating Today for a Sustainable Tomorrow

Our mission is to transform the plastic cleaning equipment industry by offering innovative, eco-friendly solutions that reduce environmental impact without compromising performance or durability. We are dedicated to minimizing plastic waste through responsible sourcing, the use of recyclable materials, and sustainable manufacturing practices. With integrity and creativity at the core of our approach, we aim to lead positive change in the industry and empower our customers to make environmentally conscious choices for a cleaner, greener future.

OUR VISION

Innovative Approaches Shaping the Future

Our vision is to shape the future of innovation in the cleaning industry through sustainable production practices, a commitment to environmental stewardship, and a deep respect for future generations. We aspire to grow in harmony with nature while delivering solutions that elevate industry standards and support a more sustainable world.
